

BBB[®] PRINTING & DIGITAL EXPORT TIPS

PRINTING

Download Your File with Bleed and Crop Marks

- Click Share → Download.
- Under File type, choose PDF Print (best quality for printing).
- Click Show more options, then check both boxes:
 - ☒ Crop marks and bleed
- Click Download.

Send to Printer or Print Yourself

- If you're using a professional printer, upload the downloaded PDF.
- If printing at home, use the “Actual size” or “100% scale” option in your print dialog (avoid “Fit to page”).

DIGITAL EXPORT

Export the File

- Click Share → Download
- Under File type, select the appropriate format:
 - PNG → best for crisp images, graphics, and text
 - JPG → smaller file size, good for photos
- Under Size, drag the slider to 2x for sharper quality (optional but recommended).
- Leave Crop marks and bleed unchecked — you don't need them for digital posts.
- Click Download.
